Luminet®

Luminet Wireless Lite

Service

Introduction

Our **Luminet Wireless Lite** service is 10Mbps – 100Mbps delivered over the air and can be installed in 10 working days, usually completed in 4-6 hours.

This service is ideal for customers to replace leased line wired services or those who cannot be served with a leased line wired service, require a quick installation, truly diverse primary or backup connection or have a temporary need such as an event or wayleave issues.

Luminet Wireless Lite is for dedicated Internet access or for multi- site networking whether virtual or physical and can be delivered as MPLS or VPLS or QnQ.

Our core networks have had 100% uptime over the last 9 years, because of our fully mirrored, redundant and diverse hardware and software, providing carrier class connectivity for some of the world's biggest brands and heaviest data users. Our network is built so that customers have the shortest distance to the internet with no more than 2 hops to ensure very low latency.
